GPH15M HIGH-EFFICIENCY PACKAGED HEAT PUMP UNIT

Thank goodness for Goodman.®

Air Conditioning & Heating

KEEP YOUR FAMILY IN ENERGY-EFFICIENT COMFORT FOR YEARS TO COME.

The Goodman® brand GPH15M Heat Pump provides refreshingly-affordable value to homeowners and small businesses while helping to lower energy bills as compared to lower SEER units.

Goodman brand packaged units sit on the ground or rooftop outside your home or business and deliver quiet, year-round comfort from a single, self-contained unit. These high-efficiency units operate as an air conditioner during warm weather, and in the winter deliver heat pump-generated warmth. All units come fully charged and tested with chlorine-free R-410A refrigerant – direct from the factory.

COMFORT. SAVINGS. PERFORMANCE.

PACKAGED HEAT PUMPS

The high-efficiency Goodman brand GPH15M Packaged Heat Pump provides economical air conditioning, then, by reverse cycle, delivers economical heating during colder periods. Supplementary electric heat is added at predetermined temperatures during severe cold spells.

R-410A REFRIGERANT

Compared to lower SEER units, our new Goodman brand GPH15M Packaged

Heat Pump will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. This refrigerant does not contain chlorine.

YEAR-ROUND EFFICIENCY

“SEER” stands for Seasonal Energy Efficiency Ratio, which is a measurement of an air conditioner’s cooling energy efficiency developed by the U.S. Department of Energy. It’s a simple formula: the higher the SEER of your unit, the greater its efficiency—and the lower your operating costs.

When properly installed, your new Goodman brand GPH15M Packaged Heat Pump offers efficiencies that provide significant savings compared to lower SEER units.

RELIABILITY AND LONG LIFE

One of the most critical components of a packaged heat pump is the compressor. Our GPH15M Packaged Heat Pump boasts a high-performance, high-efficiency compressor, which operates in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively.

IMPRESSIVE FEATURES & BENEFITS: **GOODMAN® BRAND GPH15M** **HIGH-EFFICIENCY PACKAGED HEAT PUMP UNIT**

- Up to 15 SEER/8.0 HSPF
- 10-Year Parts Limited Warranty*
- Chlorine-free R-410A refrigerant
- High-quality, high-efficiency compressor
- EEM blower motor
- Quality powder-paint finish resists fading and corrosion
- Fully-insulated blower compartment for quiet operation
